Organization and Business

Daskon Group, LLC ("the Company") is a Limited Liability Company that was formed in New Jersey in 2024. The Company is taxed as a partnership. Daskon Group, LLC, serves as a general contractor for governmental, institutional and commercial projects.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company maintains its cash balances in bank accounts and certificates of deposits with what it believes to be credit-worthy financial institutions. However, cash balances may exceed FDIC insured levels at various times during the period. The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

Income Recognition

The Company recognizes revenue under the FASB guidelines of Topic 606, Revenue from Contracts with Customers. This establishes principles for reporting useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's construction contracts with customers. The Company determines revenue recognition through the following five-step framework:

1. Identification of the contract with the customer.
2. Identification of the performance obligations in the contract.
3. Determination of the transaction price.
4. Allocation of the transaction price to the performance obligations over the contract term.
5. Recognize the revenue over time as work is performed.

The Company has chosen to apply the modified retrospective method of adoption which had no material implications on the financial statements.

The Company measures progress toward completion using costs incurred relative to total estimated contract costs. Revenue recognized in excess of amounts billed is recorded as a construction asset, amounts billed in excess of revenue recognized are recorded as construction liability. Contract estimates are reviewed periodically and adjustments to estimated revenues or costs are recognized in the period identified.

The Company's financial statements are prepared using the accrual method of accounting. During 2025, approximately 50% of the Company's revenues were comprised of the Company's three largest customers. Sales were recorded net of sales tax.

Depreciation

Depreciation is provided over the useful lives of the assets for financial purposes. Class life range is 5 – 10 years. Straight Line Depreciation is utilized.

Income Taxes

The Company is a partnership under the provisions of the Internal Revenue Code and applicate state statutes and, accordingly, is not subject to Federal and New Jersey income taxes.

As of the date of these financial statements, the corporate income tax return statute of limitations for the years 2024 and 2025, has not expired and accordingly the returns for these years may be examined by taxing authorities. The Company recognizes interest accrued related to tax in interest expense and penalties in operating expenses. During the year ended December 31, 2025, the Company recognized no interest or penalties.

Use of Estimates

The preparation of these financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates are based on management's knowledge of current events and actions, which cannot be predicted with certainty. Therefore, actual results could differ from these estimates and assumptions.

2. ACCOUNTS RECEIVABLE – TRADE

The allowance method has been utilized regarding the allowance for doubtful accounts. Management feels that all outstanding trade receivables as of December 31, 2025, are fully collectible. The top three customer receivables account for 57%, 33% and 6% respectively. The Company adopted the amendments of Accounting Standards Update 2016-113, Financial Instruments – Credit Losses (Topic 326) Measurement of Credit Losses on Financial Instruments. Topic 326 requires entities to measure expected credit losses over the contractual life of financial assets, including trade receivables. The standard replaces the incurred loss model with an expected credit loss methodology that requires recognition of credit losses.

3. FIXED ASSETS

Depreciation is provided on a straight-line basis over 5 to 10 years on the respective equipment, vehicles and leasehold improvements. Maintenance and repairs are charged to income as incurred. Renewals and betterments are capitalized. Upon sale or other disposal of depreciable assets, costs and accumulated depreciation are removed from the accounts and any resultant gain or loss is reflected in income.

Vehicles	$193,328
Equipment	5,577
Total fixed asset cost	$198,905
Accumulated depreciation	(11,177)
	$187,728
