Liquidated damages shall be in the amount of:

FIVE HUNDRED (\$500) DOLLARS PER CALENDAR DAY

The liquidated damage provision contained in this contract shall not be the exclusive damage remedy available to the Housing Authority and the parties hereto agree that the Housing Authority shall, in its discretion, additionally have the right to assert and claim any real or actual damages which may be sustained by it. In addition to liquidated damages, be advised that in the event of performance of this contract, the Housing Authority reserves the right to consider any unjustified delay beyond the contract completion date as a bearing on your responsibility to perform future contracts for the Housing Authority.

Documentation of any and all delays must be provided by the Contractor.

21. ALTERNATIVE DISPUTE RESOLUTION In submitting this bid, the bidder acknowledges that, pursuant to N.J.S.A. 40A:11-50 (P.L. 1997, c. 371), the contract documents contain provisions for an alternative dispute resolution ("ADR") procedure, set forth and defined, in its entirety, in Paragraph 31, entitled "Disputes" of the General Conditions of the Contract, as amended by the Special Conditions of the Contract, incorporated herein by reference, which procedure conforms to industry standards, and which must be utilized to attempt to resolve disputes arising under the contract prior to such disputes being submitted to a court for adjudication. Any such dispute shall be settled by mediation, as that term is defined in the Special Conditions, pursuant to the Mediation Rules of the Housing Authority (the "Mediation Rules"). The Contractor, as the successful bidder, agrees to mediation pursuant to the Mediation Rules, currently in effect, on file with the Housing Authority and available upon request. The cost of Mediation shall be paid entirely by the Contractor.

Nothing in this section shall prevent the contracting unit/officer from seeking injunctive or declaratory relief in court at any time.

When a dispute concerns more than one contract, i.e. a construction contract and a related contract involving design, architecture, management, or engineering, or when more than one dispute of a similar nature arises under a construction contract, all interested parties may be included in the ADR proceeding, at the request of one of the contracting parties, unless determined to be inappropriate by the person appointed to resolve the dispute. The term "construction contract" includes contracts for construction, or its related architecture, engineering or construction management. The ADR shall not apply to disputes concerning the bid solicitation or award process, or to the formation of contracts or subcontracts to be entered into pursuant to N.J.S.A. 40A:11-1 et seq.

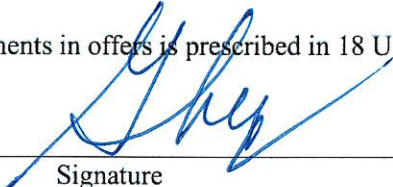

22. CONTRACTOR'S EXPERIENCE The bidder shall be a State licensed contractor and shall be totally familiar with all the procedures and materials integral to the system. The bidder shall provide written documentation of previous experience with equal size installations of this contract. The Housing Authority may make such investigations as deemed necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to the Owner all such information and data for this purpose as the Owner may request, including but not limited to, his previous experience in performing comparable work, his business and technical organizations, and financial resources.
23. BUSINESS REGISTRATION CERTIFICATE At the time of the bid, the bidder should submit a certification that the bidder has complied with the business registration provisions of N.J.S.A. 52:32-44 and N.J.S.A. 40A:11-23.2, and, in particular, that the bidder has either: (a) obtained a Business Registration Certificate from the State of New Jersey, Department of Treasury and has attached a true copy of the said Certificate to the Certification; or (b) obtained a Certificate of Registration for Individuals Contracting with Public Agencies from the State of New Jersey, Department of the Treasury and has attached a true copy of the said Certificate to the Certification. Failure to submit this form and its accompanying documents could result in rejection of the bid. However, pursuant to N.J.S.A. 40A:11-23.2 and N.J.S.A. 52:32.44 (1)(b), both as recently amended in January 2010 by P.L. 2009, c.315 the Authority, at its sole option and discretion, can determine that the Contractor determined to be the lowest responsible bidder can provide the Business Registration Certificate to the Authority subsequent to the bidding process, but prior to the time a contract is executed.
24. LICENSED SUBCONTRACTORS At the time of the bid, the bidder shall submit a certificate which lists subcontractors for the furnishing of plumbing, gas fitting, heating/ventilation/air conditioning, electrical, structural steel and ornamental iron work. Said certificate shall identify the scope of work for which each listed subcontractor for the above referenced trades has submitted a price quote and for which the bidder has agreed to award to each subcontractor should the bidder be awarded the contract. Said certificate shall also include for each subcontractor named thereon: (a) the subcontractor name; (b) address; (c) telephone number; (d) New Jersey license number (if applicable); (e) name of licensee (if applicable). Failure to submit this form and its accompanying documents will result in rejection of the bid. In addition, at the time of the bid, the bidder should submit a copy of the Business Registration Certificate and enter on the subcontractor certificate the number of such certificates for each subcontractor required to be listed as a subcontractor. However, pursuant to the revisions in the law described in paragraph 23 above, the Authority, at its sole option and discretion, can determine that the Contractor determined to be the lowest responsible bidder can provide the Business Registration Certificate of any subcontractor required to be listed to the Authority subsequent to the bidding process, but prior to the time a contract is executed with the Contractor.
25. OTHER SUBCONTRACTORS For those subcontractors not referenced in the above paragraph, the bidder acknowledges that no contract with a subcontractor shall be entered into by any contractor under any contract with the Authority unless the subcontractor first provides proof of valid business

registration as indicated in the Business Registration Certification that forms a part of this bid. Moreover, the successful bidder shall comply with all of the requirements set forth in the Business Registration Certification with respect to subcontractors. The bidder further acknowledges that the successful contractor shall maintain and submit to the Authority a list of subcontractors and their addresses that may be updated from time to time during the course of the contract performance. A complete and accurate list shall be submitted before final payment is made for goods provided or services rendered or for the construction of a construction project under the contract.

26. TAX EXEMPTION Bidders are to take note that the Housing Authority is an exempt organization under the provisions of the New Jersey State Sales and Use Tax Act and the payment of sales taxes are not required.
27. LEAD-BASED PAINT Any contractor awarded a contract shall comply with 24 CFR Part 35 prohibiting the use of lead-based paint.
28. GUARANTEE OF WORK The Contractor shall guarantee all work and materials under this contract to be free from defects in workmanship or materials except for normal wear and tear for a period of one (1) year from the date of completion and acceptance by the Owner and agrees to replace any such defects at no charge to the Owner during that period. The Contractor agrees to furnish a surety corporation bond in the amount of five (5) percent of the paid contract price to insure the one (1) year guarantee obligations prior to final payment.
29. PRICE ESCALATION CLAUSE The Contractor agrees that in the event of a significant price increase of material during the performance of the Contract through no fault of the Contractor, the Contract Value may be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item material will be considered significant (as utilized in this clause) when the price of said item of material increases 20% between the date of this Contract and the date of purchase of said material for use on the Project. The amount of this increase shall be capped at 20%. In the event of a material price increase, the Contractor shall submit, as a minimum, all of the following information, 1) manufacturer's price list at the date of the Contract and the date of a claim under this escalation clause, 2) distributor/retailer quote or invoice at the date of the Contract and the date of a claim under this escalation clause, and 3) data from recognized US commodity market reflecting US and regional (NY-NJ) market prices at the date of the Contract and the date of a claim under this escalation clause. The Contractor shall make every best effort, and demonstrate that it has done so, to lock in material costs or to pre-purchase materials for use of this project to be stored at the Project Sites.

NOTE: The penalty for making false statements in offers is prescribed in 18 U.S.C. Section 1001.

Depreciation and amortization expenses related to property and equipment was \$165,911 and \$139,197 for the periods ending December 31, 2024, and 2023, respectively.

Note 2 - Contract Receivables:

Contracts receivables include billed and unbilled amounts for services provided to customers for which the Company has an unconditional right to payment. Billed and unbilled amounts for which payment is contingent on anything other than the passage of time are included in contract assets and contract liabilities on a contract-by-contract basis.

When payment of the retainage is contingent upon the Company fulfilling its obligations under the contract it does not meet the criteria to be included in contracts receivable and remains in the contract's respective contract asset or contract liability, determined on a contract-by-contract basis. Retainage for which the Company has an unconditional right to payment that is only subject to the passage of time is included in contracts receivable.

INDEPENDENT AUDITOR'S REPORT

Panoramic Window & Door Systems Inc.

Stockton, NJ 08559

Opinion

We have audited the accompanying financial statements of Panoramic Window & Door Systems Inc., a New Jersey corporation, which comprise the balance sheets as of December 31, 2024 and 2023, and the related statements of income, retained earnings, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Panoramic Window & Door Systems Inc. as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Panoramic Window & Door Systems Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Panoramic Window & Door Systems Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore it is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Panoramic Window & Door Systems Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Panoramic Window & Door Systems Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The contract costs, general administrative expenses, gross profit analysis and contracts in progress on pages 20-22 are presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

Note 1 – Nature of Operations and Significant Accounting Policies:

Nature of Operations:

Panoramic Window & Door Systems Inc. (The Company) is a general contractor providing installations of windows and doors in New Jersey and Pennsylvania. The Company performs work on contracts issued by both public and private sector owners. The work performed is primarily under fixed priced contracts. The lengths of the contracts vary but typically range from three to eighteen months.

Significant Accounting Policies:

Use of Estimates:

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Management periodically evaluates estimates used in the preparation of the financial statements for continued reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation. It is reasonably possible that changes may occur in the near term that would affect management's estimates with respect to the percentage of completion methods, allowance for doubtful accounts and accrued expenses.

Revisions in estimated revenue from contracts are made in the year in which circumstances requiring the revision become probable.

Balance Sheet Classifications:

The Company includes in current assets and liabilities the following amounts that are in connection with construction contracts that may extend beyond one year: contract assets and contract liabilities (including retainage invoiced to customers contingent upon anything other than the passage of time), capitalized costs to fulfill contracts retainage payable to sub-contractors and accrued losses on uncompleted contracts. A one-year time period is used to classify all other current assets and liabilities when not otherwise prescribed by the applicable accounting principles.

Operating Cycle:

The Company's work is performed under cost-plus-fee contracts, fixed-price contracts, and fixed-price contracts modified by incentive and penalty provisions. The length of the Company's contracts can be in excess of one year. Therefore, assets and liabilities are not classified as current and non-current because the contract-related items in the balance sheet have realization and liquidation periods extending beyond one year.

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

Cash and Cash Equivalents:

Financial instruments that potentially subject the Company to concentrations of credit risk are primarily cash and cash equivalents. The Company mitigates its risk with respect to cash and cash equivalents by maintaining its deposits and contracts at prominent financial institutions and monitoring the credit ratings of those institutions. At times the Company's cash balances may exceed the Federal Deposit Insurance Corporation ("FDIC") insurance limits. On December 31, 2024 and 2023, cash exceeded FDIC limits by approximately \$1,080,660 and \$1,403,430 respectively.

Revenue Recognition:

For contracts that are within the scope of FASB ASC 606, the Company performs the following five steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when (or as) the entity satisfies a performance obligation.

Performance Obligations and Recognition Method:

The Company evaluates whether two or more contracts should be combined and accounted for as one single performance obligation and whether a single contract should be accounted for as more than one performance obligation. ASC 606 defines a performance obligation as a contractual promise to transfer a distinct good or service to a customer. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The Company's evaluation requires significant judgement and the decision to combine a group of contracts or separate a contract into multiple performance obligations could change the amount of revenue and profit recorded in a given period. The majority of the Company's contracts have a single performance obligation, as the promise to transfer the individual goods or services is not separately identifiable from other promises in the contract and, therefore, is not distinct. Occasionally the Company has contracts with multiple performance obligations. However, in 2024 and 2023 the Company had no contracts with multiple performance obligations.

Revenue related to contracts with customers is recognized over time as work is completed because of the continuous transfer of control to the customer (typically using an input measure such as costs incurred to date relative to total estimated costs at completion to measure progress). Costs that do not depict progress toward satisfaction of the performance obligation are included in contract costs with revenue recognized to the extent of such costs without any profit and include items such as uninstalled materials and re-work.

Revenue on contracts with customers is measured based on consideration specified in a contract with a customer, and excludes any amounts collected on behalf of third parties. Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

producing transaction, that are collected by the Company from a customer, are excluded from revenue.

Contract revenues are primarily derived from fixed-price construction contracts. The Company has determined that generally these fixed-price construction projects provide a distinct service and, therefore, qualify as one performance obligation as the promise to transfer the individual goods and services is not separately identifiable from other promises in the contracts and, therefore, not distinct. Revenue is recognized over time, because of the continuous transfer of control to the customer as work is performed at the customer's site and, therefore, the customer controls the asset as it is being constructed. The cost-to-cost measure of progress best depicts the transfer of control of assets to the customer, which occurs as costs are incurred.

Revenues from time-and-material contracts are billed to customers as work is performed. The Company determined that generally time-and-material contracts contain a single performance obligation as the services and maintenance provided by the contracts are considered a series that are substantially the same and have the same pattern of transfer to the customer. The performance obligation is considered to be satisfied over time since the customer simultaneously receives and consumes the benefits of the time-and-material contracts.

The cost of revenues earned include all direct material and labor costs and those indirect costs related to contract performance, such as, indirect labor, supplies, tools, repairs, and depreciation costs. Costs to fulfill a contract, including mobilization costs, prior to substantive work beginning is capitalized as incurred and amortized over the expected duration of the contract. During the years ended December 31, 2024 and 2023, the Company amortized costs of contracts \$0, and \$0 of capitalized costs to fulfill contracts, respectively. General and administrative costs are charged to the expense as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. The Company's contracts may include retention provisions to provide assurance to customers that the Company will perform in accordance with the contract terms. The retention provisions are not considered a significant financing component. The balances billed but not paid by customers pursuant to these provisions generally become due upon completion of and acceptance of the project by the customer. The Company has determined that there are no significant financing components included in construction contracts as of December 31, 2024 and 2023.

Contract Estimates including Claims, Unapproved Change Orders and Variable Consideration:

Accounting for long-term contracts with customers involves the use of various techniques to estimate total transaction price, total estimated costs at completion, and progress toward satisfaction of performance obligations which are used to recognize revenue earned. Unforeseen events and circumstances can alter the estimate of the costs associated with a particular contract. Total estimated costs at completion can be impacted by changes in productivity, scheduling, the unit cost of labor, subcontracts, materials, and equipment. Additionally, external factors such as weather, customer needs, customer delays in providing permits and approvals, labor availability,

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

governmental regulation and politics may affect the progress of a project's completion, and thus the timing and amount of revenue recognition. To the extent that original cost estimates are modified, estimated costs to complete increase, delivery schedules are delayed, or progress under a contract is otherwise impeded, cash flow, revenue recognition, and profitability from a particular contract may be adversely affected.

The nature of the Company's contracts gives rise to several types of variable consideration, including contract modifications (approved change orders and claims), liquidated damages, volume discounts, performance bonuses, shared savings, incentive fees, and other terms that can either increase or decrease the transaction price. Transaction price for contracts is required to include evaluation of variable consideration to which the Company has an enforceable right to compensation or obligation for a reduction (as for liquidated damages), which can result in increases or decreases to a contract's transaction price. The Company estimates variable consideration as the most likely amount to which it expects to be entitled. The Company includes variable consideration in the estimated transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. The estimates of variable consideration and determination of whether to include estimated amounts in transaction price are based largely on an assessment of the anticipated performance and all information (historic, current, and forecast) that is reasonably available to the Company. The effect of a change in variable consideration on the transaction price of a performance obligation is recognized as an adjustment to revenue on a cumulative catch-up basis.

Contract modifications can result from changes in contract specifications or requirements that either create new or change existing enforceable rights and obligations of the parties to the contract. The Company considers unapproved change orders to be contract modifications for which customers have agreed to changes in the scope of the contract but have not agreed to the price.

The Company considers claims to be contract modifications for which the Company has sought, or will seek, to collect from customers, or others, for customer-caused changes in contract specifications or design, or other customer-related causes of unanticipated additional contract costs on which there is no contractual agreement with the customer for changes in either the scope or price of the contract. Claims can also be caused by non-customer caused changes. Such as weather delays, work stoppages or other unanticipated events.

Costs associated with contract modifications are included in the estimated costs to complete the contracts and are treated as project costs when incurred. In most instances, contract modifications are goods or services that are not distinct and, therefore, are accounted for as part of the existing contract. In those instances, the effect of a contract modification on the transaction price, and the measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue on a cumulative catch-up basis.

To the extent approved change orders and claims reflected in the transaction price are not resolved in the Company's favor, or to the extent other contract provisions reflected in the

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

transaction price are not earned, there could be reductions in or reversals of previously recognized revenue.

As a significant change in one or more of these estimates could affect the revenue and profitability of the Company's long-term construction contracts, the Company reviews and updates contract-related estimates regularly. The Company recognizes adjustments in estimated revenue on contracts on a cumulative catch-up basis. Under this method, the cumulative impact of the revenue adjustment is recognized in the period the adjustment is identified. Revenue in future periods of contract performance are recognized using the adjusted estimate. If at any time the contract estimates indicate an anticipated loss on a contract, the projected loss is recognized in full, including the reversal of any previously recognized profit, in the period it is identified and recognized as an accrued loss on uncompleted contracts on the balance sheet. No adjustments resulting from revisions to estimates on any individual contract were material to the financial statements for the years ended December 31, 2024 or 2023.

Contract Assets and Contract Liabilities:

The timing of when the Company bills their customers on long-term construction contracts is generally dependent upon agreed-upon contractual terms, which may include milestone billings based on the completion of certain phases of the work, or when services are provided. When billings occur subsequent to revenue recognition as a result of contingencies, the result is unbilled revenue, which is included in contract assets. Additionally, the Company may receive advances or deposits from customers before revenue is recognized, resulting in deferred revenue, which is included in contract liabilities.

Retainage for which the Company has an unconditional right to payment that is only subject to the passage of time is classified as contracts receivable. Retainage subject to conditions other than the passage of time does not meet the definition of a receivable and is therefore included in contract assets and contract liabilities, as determined on a contract-by-contract basis.

Contract assets represent revenues recognized in excess of amounts paid or payable (contract receivables) to the Company on uncompleted contracts. Contract liabilities represent the Company's obligation to perform on uncompleted contracts with customers for which the Company has received payment or for which contract receivables are outstanding. The following table provides information about contract assets and contract liabilities from contracts with customers as of December 31, 2024 and 2023:

Property and Equipment:

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 15 years. Additions, renewals, and betterments that significantly extend the life of the asset are capitalized. Expenditures for repairs and maintenance are charged to expense as incurred.

For assets sold or otherwise disposed of, the cost and related accumulated depreciation and amortization are removed from the accounts, and any related gain or loss is reflected in income for the period. The cost of maintenance and repairs is expensed as occurred.

Surety Bonds:

The Company has surety bonds for all jobs as of December 31, 2024, and for the subsequent jobs into 2025 through February 28, 2025. The Company is fully bonded for all jobs.

Income Taxes:

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S corporation. In lieu of corporate income taxes, the shareholder of an S corporation is taxed on his proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements. The Company files income tax returns in the U.S. federal jurisdiction, and various state and local jurisdictions.

Although it has no obligation to do so, the Company may subsequently pay distributions to its shareholder in an amount sufficient to compensate the shareholders for the income taxes it might be required to pay on the S corporations' income.

Panoramic Window & Door Systems Inc. uses both the accrual method for federal and state income tax reporting and the percentage-of-completion method for financial statement presentation for reporting profits on contracts. The Company has elected to be taxed as an "S" Corporation, whereby the corporation will recognize any Company earnings or loss on the shareholders personal tax returns.

Tax positions are recognized if it is more likely than not, based on the technical merits, the tax position will be realized or sustained upon examination. The term "more likely than not" means a likelihood of more than 50%; the terms examined and upon examination also include resolution of the related appeals or litigation processes, if any. A tax position that meets the more-likely-than-not recognition threshold is initially and subsequently measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether a tax position has met the more-likely-than-not recognition threshold considers the facts, circumstances, and information available at the reporting date and is subject to management's judgment. As of December 31, 2024, there were no uncertain tax positions.

Concentration Risk:

The credit risk for customer accounts is concentrated because the balances due from the Company's two largest customers comprise of \$9,632,346 or 39% of total revenues. However, customer accounts typically are collected within a short period of time, and based on its assessment of current conditions, management believes realization losses on amounts outstanding at the end of 2024 will be immaterial, as they were in 2023. Accordingly, customer accounts are reported at the amount of principal outstanding.

Panoramic Window & Door Systems Inc.
Notes to Financial Statements
Years Ending December 31, 2024 and 2023

The Company provides an allowance for doubtful accounts, which is based upon a review of outstanding receivables, historical collection of information and existing economic conditions.

Contracts receivables are ordinarily due 30 days after the issuance of the invoice. Accounts that are unpaid after the due date bear interest at 0 % per month. Accounts past due more than 90 days are considered delinquent. Delinquent receivables are written off based on individual credit evaluation and specific circumstances of the customer.

Contracts receivable consisted of the following as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Contracts Receivable		
Completed Contracts	\$2,577,994	\$3,422,225
Contracts in Progress	<u>\$1,886,018</u>	<u>\$521,364</u>
Retainage receivables	<u>(\$445,833)</u>	<u>\$0</u>
Net Accounts Receivable	<u>\$4,018,179</u>	<u>\$3,943,589</u>

Retainage included in total contracts receivable amounts to \$4,464,012 and \$3,943,589 as of December 31, 2024 and 2023, respectively. Retainages are due upon completion of contracts. Based on estimated contract completion dates 100% of \$445,833 of retainage on the uncompleted jobs will likely be collected in less than one year.

The Company bills contractors based upon the progress on the job. As of December 31, 2024 and 2023, there were certain amounts for work performed on the contracts which were not included in the contract receivables and were unbilled as of those dates. The costs related to the work performed since the previous billing date are included in the costs of revenues earned accounts, with corresponding estimated revenue in contract revenues earned.

The Company frequently earns revenues from both approved change orders and additions to contracts.

Note 8 - Uncertainties, Contingencies and Risks:

The Company is a defendant in several claims relating to matters arising in the ordinary course of their construction business. Certain claims are insured but are subject to varying deductibles and certain of the claims are uninsured. The amount of liability, if any, from the claims cannot be determined with certainty; however, management is of the opinion that the outcome of the claims will not have a material adverse impact on the Company's financial position. Due to uncertainties in the settlement process, it is at least reasonably possible that management's estimate of the outcome might change within the next year.

Note 9 – Financing Arrangements:

Line of Credit:

The Company has a \$600,000 revolving line of credit, none of which was used at December 31, 2024 and 2023. Bank advances on the credit line are payable on demand and carry an interest rate of 1.75% over prime. The credit line is secured by substantially all corporate assets and is personally guaranteed by the shareholder of the corporation.

Although it has no obligation to do so, the Company may subsequently pay distributions to its shareholder in an amount sufficient to compensate the shareholders for the income taxes he might be required to pay on the S- corporations' income.

Note 10- Fair Market Measurements:

The Company has a number of financial instruments, none of which are held for trading purposes. The Company estimates that the fair value of all financial instruments at December 31, 2024, does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value, and, accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange. Pursuant to the requirements of accounting standards relating to Fair Value Measurements, the Organization has provided fair value disclosure information for relevant assets and liabilities in these financial statements. The following table summarizes assets (liabilities) which have been accounted for at fair value on a recurring basis as of December 31, 2024 along with the basis for the determination of fair value:

	Tier 1	Tier 2	Tier 3
Cash		(\$54,977)	
Investment Accounts		\$1,330,660	
Contracts Receivable		4,464,012	

For applicable assets and liabilities subject to this pronouncement, the Organization will value such assets and liabilities using quoted market prices in active markets for identical assets and liabilities to the extent possible (Tier 1). To the extent that such market prices are not available, the Organization will next attempt to value such assets and liabilities in active and inactive markets and other corroborated factors (Tier2). In the event that quoted market prices in active markets and other observable measurement criteria are not available, the Organization will develop measurement criteria based on the best information available (Tier 3).

Note 11- Subsequent Events:

Taxpayer Identification# 222-895-351/000

Dear Business Representative:

Congratulations! You are now registered with the New Jersey Division of Revenue.

Use the Taxpayer Identification Number listed above on all correspondence with the Divisions of Revenue and Taxation, as well as with the Department of Labor (if the business is subject to unemployment withholdings). Your tax returns and payments will be filed under this number, and you will be able to access information about your account by referencing it.

Additionally, please note that State law requires all contractors and subcontractors with Public agencies to provide proof of their registration with the Division of Revenue. The law also amended Section 92 of the Casino Control Act, which deals with the casino service industry.

We have attached a Proof of Registration Certificate for your use. To comply with the law, if you are currently under contract or entering into a contract with a State agency, you must provide a copy of the certificate to the contracting agency.

If you have any questions or require more information, feel free to call our Registration Hotline at (609)292-9292.

I wish you continued success in your business endeavors.

Sincerely,

James J. Fruscione
Director
New Jersey Division of Revenue
