In addition to liquidated damages, be advised that in the event of performance of this contract, the Housing Authority reserves the right to consider any unjustified delay beyond the contract completion date as a bearing on your responsibility to perform future contracts for the Housing Authority.

Any such dispute shall be settled by mediation, as that term is defined in the Special Conditions, pursuant to the Mediation Rules of the Housing Authority (the "Mediation Rules"). The Contractor, as the successful bidder, agrees to mediation pursuant to the Mediation Rules, currently in effect, on file with the Housing Authority and available upon request. The cost of Mediation shall be paid entirely by the Contractor.

Nothing in this section shall prevent the contracting unit/officer from seeking injunctive or declaratory relief in court at any time.

When a dispute concerns more than one contract, i.e. a construction contract and a related contract involving design, architecture, management, or engineering, or when more than one dispute of a similar nature arises under a construction contract, all interested parties may be included in the ADR proceeding, at the request of one of the contracting parties, unless determined to be inappropriate by the person appointed to resolve the dispute. The term "construction contract" includes contracts for construction, or its related architecture, engineering or construction management. The ADR shall not apply to disputes concerning the bid solicitation or award process, or to the formation of contracts or subcontracts to be entered into pursuant to N.J.S.A. 40A:11-1 et seq.

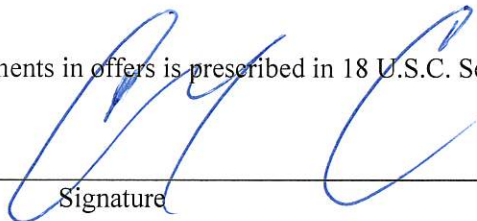

22. CONTRACTOR'S EXPERIENCE The bidder shall be a State licensed contractor and shall be totally familiar with all the procedures and materials integral to the system. The bidder shall provide written documentation of previous experience with equal size installations of this contract. The Housing Authority may make such investigations as deemed necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to the Owner all such information and data for this purpose as the Owner may request, including but not limited to, his previous experience in performing comparable work, his business and technical organizations, and financial resources.
23. BUSINESS REGISTRATION CERTIFICATE At the time of the bid, the bidder should submit a certification that the bidder has complied with the business registration provisions of N.J.S.A. 52:32-44 and N.J.S.A. 40A:11-23.2, and, in particular, that the bidder has either: (a) obtained a Business Registration Certificate from the State of New Jersey, Department of Treasury and has attached a true copy of the said Certificate to the Certification; or (b) obtained a Certificate of Registration for Individuals Contracting with Public Agencies from the State of New Jersey, Department of the Treasury and has attached a true copy of the said Certificate to the Certification. Failure to submit this form and its accompanying documents could result in rejection of the bid. However, pursuant to N.J.S.A. 40A:11-23.2 and N.J.S.A. 52:32.44 (1)(b), both as recently amended in January 2010 by P.L. 2009, c.315 the Authority, at its sole option and discretion, can determine that the Contractor determined to be the lowest responsible bidder can provide the Business Registration Certificate to the Authority subsequent to the bidding process, but prior to the time a contract is executed.
24. LICENSED SUBCONTRACTORS At the time of the bid, the bidder shall submit a certificate which lists subcontractors for the furnishing of plumbing, gas fitting, heating/ventilation/air conditioning, electrical, structural steel and ornamental iron work. Said certificate shall identify the scope of work for which each listed subcontractor for the above referenced trades has submitted a price quote and for which the bidder has agreed to award to each subcontractor should the bidder be awarded the contract. Said certificate shall also include for each subcontractor named thereon: (a) the subcontractor name; (b) address; (c) telephone number; (d) New Jersey license number (if applicable); (e) name of licensee (if applicable). Failure to submit this form and its accompanying documents will result in rejection of the bid. In addition, at the time of the bid, the bidder should submit a copy of the Business Registration Certificate and enter on the subcontractor certificate the number of such certificates for each subcontractor required to be listed as a subcontractor. However, pursuant to the revisions in the law described in paragraph 23 above, the Authority, at its sole option and discretion, can determine that the Contractor determined to be the lowest responsible bidder can provide the Business Registration Certificate of any subcontractor required to be listed to the Authority subsequent to the bidding process, but prior to the time a contract is executed with the Contractor.
25. OTHER SUBCONTRACTORS For those subcontractors not referenced in the above paragraph, the bidder acknowledges that no contract with a subcontractor shall be entered into by any contractor under any contract with the Authority unless the subcontractor first provides proof of valid business

registration as indicated in the Business Registration Certification that forms a part of this bid. Moreover, the successful bidder shall comply with all of the requirements set forth in the Business Registration Certification with respect to subcontractors. The bidder further acknowledges that the successful contractor shall maintain and submit to the Authority a list of subcontractors and their addresses that may be updated from time to time during the course of the contract performance. A complete and accurate list shall be submitted before final payment is made for goods provided or services rendered or for the construction of a construction project under the contract.

26. TAX EXEMPTION Bidders are to take note that the Housing Authority is an exempt organization under the provisions of the New Jersey State Sales and Use Tax Act and the payment of sales taxes are not required.
27. LEAD-BASED PAINT Any contractor awarded a contract shall comply with 24 CFR Part 35 prohibiting the use of lead-based paint.
28. GUARANTEE OF WORK The Contractor shall guarantee all work and materials under this contract to be free from defects in workmanship or materials except for normal wear and tear for a period of one (1) year from the date of completion and acceptance by the Owner and agrees to replace any such defects at no charge to the Owner during that period. The Contractor agrees to furnish a surety corporation bond in the amount of five (5) percent of the paid contract price to insure the one (1) year guarantee obligations prior to final payment.
29. PRICE ESCALATION CLAUSE The Contractor agrees that in the event of a significant price increase of material during the performance of the Contract through no fault of the Contractor, the Contract Value may be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item material will be considered significant (as utilized in this clause) when the price of said item of material increases 20% between the date of this Contract and the date of purchase of said material for use on the Project. The amount of this increase shall be capped at 20%. INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors and Stockholders
Continental Flooring Company
Scottsdale, Arizona

We have reviewed the accompanying financial statements of Continental Flooring Company (an Arizona corporation), which comprise the balance sheet as of June 30, 2025, and the related statements of income and comprehensive income, changes in stockholders' equity, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Continental Flooring Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

OVERVIEW OF EXPERIENCE

Continental Flooring Company, headquartered in Scottsdale, Arizona, was established in 1979. We are a nationwide flooring contractor. For over 40 years, we have been dedicated to principally serving Federal, State, County and Municipal Governments; Educational Institutions; Public Housing Authorities; and other public sector agencies throughout the United States.

Additionally, we are a long time GSA flooring contractor with a history of carpet and resilient flooring installation throughout the United States.

Our professional performance represents dedication to providing first class workmanship, combined with faithful conformance to the strict governing specifications at some of the industry's most competitive prices. We persist in keeping up with the current trends and products, while still providing the old fashioned service that has helped us get to where we are today.

As a family-owned business, we have stressed the commitment by our staff to provide the very best service to our customers throughout the Company's history. A philosophy and practice of caring professionalism permeates our sales and operations functions. This approach to doing business has paid off in that the majority of our customer base has been referred to Continental Flooring Company by other satisfied customers.

Our business philosophy is best described by our dedication to customer satisfaction. This philosophy can best be summed up by a statement by the late James G.F. Coleman, Founder of Continental Flooring Company, "...we believe in supporting the industry (floor covering) and providing the opportunity for customers to get the best value they can for their money." To accomplish this, Continental Flooring Company makes every effort to operate as a totally committed customer service oriented organization.

We are proud to make the statement that throughout our Company's history we never been debarred from doing business with any government agency. This is primarily due to our record of conforming to contract and/or product specifications and standards. Our project managers strive to perform within forecasted costs and should we experience cost overruns not attributed to a customer negotiated change order, we do not pass that cost overrun along to the customer.

The staff of Continental Flooring Company persists in keeping up with current trends in product innovation and installation techniques to provide our customers with the best possible products, service and price availability. With our vast knowledge and experience in the floor covering industry, Continental Flooring Company, teamed with the top floor covering manufacturers in the industry, adds a full package of the highest quality products and services available at the best value.

Our vast experience throughout the country has provided us with the knowledge and experience necessary to handle projects similar to the size and complex scope presented. Throughout the course of work, Continental Flooring Company staff has proven time and again that our leadership within the floor covering industry is second to none. No matter the size or scope of the project, our staff strives to provide the highest level of professionalism and skill to insure that the project runs as smoothly as possible, with minimal interruption to the end user. We attach references to include recently completed and current contracts.

Continental Flooring Company has extensive experience in working on floor covering projects within occupied facilities. This experience has provided our staff the knowledge necessary to complete projects within occupied facilities with minimal disruption.

Our staff attends regular training sessions for professional development, as well as industry training sessions offered by our manufacturers. This corporate commitment to continuing education ensures that our staff is able to provide the most updated installation methods on the cutting edge of the floor covering industry.

The average tenure at Continental Flooring Company is over 15 years. With minimal corporate turnover, our staff's knowledge is top notch, and continues to grow every day through training. In addition, Continental Flooring Company is committed to its customers and employees by providing cutting edge technology. Our accounting software was custom designed to fulfill the unique needs of our customers. Our sales staff and project managers work with a state-of-the-art digital CAD system, allowing us to minimize the amount of waste on a project substantially, even within the most complex situations. In addition, we have recently upgraded to Microsoft Dynamics CRM which will allow us to e-communicate with our customers even more effectively and manage our customer accounts at a whole new level.

The staff within the Operations Division of Continental Flooring Company are organized in a multi-tier format to insure the highest level of service to our customers. With the support of Project Coordinators, our Project Managers have the ability to efficiently manage several projects at one time. Customers are provided a primary in-office contact, a secondary in-office contact, as well as an on-site contact. Project Managers are assigned projects based on their current workload. With a rotating assignment philosophy, workload is spread evenly amongst the Project Management teams. If awarded this contract it would be the intention of Continental Flooring Company to assign the project management of this project to our Vice President of Operations, Mr. Gary McMahon.
