Purpose: This form provides HUD/USDA FmHA with a certified report of all previous participation in relevant HUD/USDA programs by those parties submitting the application. The information requested in this form is used by HUD/USDA to determine if you meet the standards established to ensure that all controlling participants in HUD/USDA projects will honor their legal, financial and contractual obligations and are of acceptable risks from the underwriting standpoint of an insurer, lender or governmental agency. HUD requires that you certify and submit your record of previous participation, in relevant projects, by completing and signing this form, before your participation can be approved.

HUD approval of your certification is a necessary precondition for your participation in the project and in the capacity that you propose. If you do not file this certification, do not furnish the information requested accurately, or do not meet established standards, HUD will not approve your certification.

Note that approval of your certification does not obligate HUD to approve your project application, and it does not satisfy all other HUD program requirements relative to your qualifications.

Who Must Sign and File Form HUD-2530: Form HUD-2530 must be completed and signed by all Controlling Participants of Covered Projects, as such terms are defined in 24 CFR part 200 §200.212, and as further clarified by the Processing Guide (HUD notice H 2016-15) referenced in 24 CFR §200.210(b) and available on the HUD website at: http://portal.hud.gov/hudportal/HUD?src=/program_offices/housing/mfh/prevparticipation.

Where and When Form HUD-2530 Must Be Filed: The original of this form must be submitted to the HUD Office where your project application will be processed at the same time you file your initial project application. This form must be filed with applications for projects listed in 24 CFR §200.214 and for the Triggering Events listed at 24 CFR §200.218.

Review of Adverse Determination: If approval of your participation in a HUD project is denied, withheld, or conditionally granted on the basis of your record of previous participation, you will be notified by the HUD Office. You may request reconsideration in accordance with 24 CFR §200.222 and further clarified by the Processing Guide. Request must be made in writing within 30 days from your receipt of the notice of determination.

The Department of Housing and Urban Development (HUD) is authorized to collect this information by law 42 U.S.C. 3535(d) and by regulation at 24 CFR 200.210. This information is needed so that principals applying to participate in multifamily programs can become HUD-approved controlling participants. The information you provide will enable HUD to evaluate your record with respect to established standards of performance, responsibility and eligibility. Without prior approval, a controlling participant may not participate in a proposed or existing multifamily or healthcare project. HUD uses this information to evaluate whether or not controlling participants pose an unsatisfactory underwriting risk. The information is used to evaluate the potential controlling participants and approve only individuals and organizations that will honor their legal, financial and contractual obligations.

Privacy Act Statement: The Housing and Community Development Act of 1987, 42 U.S.C. 3543 requires persons applying for a Federally-insured or guaranteed loan to furnish his/her Social Security Number (SSN). HUD must have your SSN for identification of your records. HUD may use your SSN for automated processing of your records and to make requests for information about you and your previous records with other public agencies and private sector sources. HUD may disclose certain information to Federal, State and local agencies when relevant to civil, criminal, or regulatory investigations and prosecutions. It will not be otherwise disclosed or released outside of HUD, except as required and permitted by law. You must provide all of the information requested in this application, including your SSN.

Purpose: The information collected by form HUD-2530 is required for principals applying to participate in multifamily programs to become HUD-approved controlling participants. The information you provide will enable HUD to evaluate your record with respect to established standards of performance, responsibility, and eligibility.

Routine Use: The information collected by this form will not be otherwise disclosed outside of HUD, except to public agencies and private sector sources for automated processing of your records and for requesting information about you for participant approval; to appropriate agencies, entities, and persons when it is reasonably necessary to mitigate a breach or related incident; to Federal, state and/or local agencies when relevant to civil, criminal, or regulatory investigations and prosecutions or for other inquiries.

SECTION 003800 - BUY AMERICAN ACT

The Contractor acknowledges to and for the benefit of the Housing Authority of the City of Bayonne ("Public Housing Agency") and HUD that it understands the goods and services under this Agreement are being funded with monies made available by the American Reinvestment and Recovery Act of 2009 (Recovery Act) (or are being made available for a project being funded with monies made available by the Recovery Act) and section 1605 of such law contains provisions commonly known as "Buy American". The Buy American requirement prohibits the use of Recovery Act funds on any project for the construction, alteration, maintenance, or repair of a public building or work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States ("Buy American Requirements") including iron, steel, and manufactured goods provided by the Contractor pursuant to this Agreement.

The Contractor hereby represents and warrants to and for the benefit of the Housing Authority and HUD that (a) the Contractor has reviewed and understands the Buy American Requirement, (b) all of the iron, steel, and manufactured goods used in the project will be and/or have been produced in the United States in a manner that complies with the Buy American Requirement, unless an exception of the requirement is approved, and (c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support an exception of the Buy American Requirement, as may be requested by the Housing Authority or HUD.

Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the Contractor shall permit the Housing Authority to recover as damages against the Contractor any loss, expense or cost (including without limitation attorney's fees) incurred by the Housing Authority resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part from HUD). Neither this paragraph (nor any provision of this Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of HUD.

The Housing Authority of the City of Bayonne may require one or more of the following Certification from a contractor or bidder:

1. Identification of American-made Iron, Steel, and Manufactured Goods: Consistent with the terms of the PHA's bid solicitation and the provisions of Section 1605 of the Recovery Act, the Bidder certifies that this bid reflects the Bidder's best, good faith effort to identify domestic sources of iron, steel, and manufactured goods for every component contained in the bid solicitation where such American-made components are available on the schedule and consistent with the deadlines prescribed in or required by the bid solicitation.
2. Verification of U.S. Production: The Bidder certifies that all components contained in the bid solicitation that are American-made have been so identified, and if this bid is accepted, the Bidder agrees that it will provide reasonable, sufficient, and timely verification to the PHA of the U.S. production of each component so identified.

3. Documentation Regarding Non-American-made Iron, Steel, or Manufactured Goods: The Bidder certifies that for any component or components that are not American-made and are so identified in this bid, the Bidder has included in or attached to this bid one or both of the following, as applicable:
 - a. Identification of and citation to a national (categorical) exception published by HUD (or another Federal agency) in the Federal Register that is applicable to such component or components, and an analysis that supports its applicability to the component or components.
 - b. Verifiable documentation sufficient to the Housing Authority, as required in the bid solicitation or otherwise, that the Bidder has sought to secure American-made components but has determined that such components are not available on schedule and consistent with the deadlines prescribed in the bid solicitation, with assurance adequate from the Bidder under applicable conditions stated in the bid solicitation or otherwise.
4. Information and Detailed Justification Regarding Non-American-made Iron, Steel, or Manufactured Goods: The Bidder certifies that for any such component or components that are not so available, the Bidder has also provided in or attached to this bid information, including but not limited to the verifiable documentation and a full description of the bidder's efforts to secure any such American-made component or components, that the Bidder believes are sufficient to provide and as far as possible constitute the detailed justification required for an exception under section 1605 with respect to such component or components. The Bidder further agrees that, if this bid accepted, it will assist the Housing Authority in amending, supplementing or further supporting such information as required by the Housing Authority to request and, as applicable, implement the terms of an exception with respect to any such component or components.

I have reviewed the accompanying financial statements of Senco Metals LLC which comprise the balance sheet as of December 31, 2022, and the related statements of income and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require myself to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America. The accompanying notes are an integral part of the financial statements.

SENCO METALS, LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company's business activity includes general construction including interior & exterior renovation work & metal fabrication for all types of commercial & governmental projects. Projects are primarily located in Northern New Jersey and the New York Tri-State region. The length of the contracts is typically less than one year. Operations commenced in 2014. The company was established as a limited liability company under the statutes of the State of New Jersey.

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

Date of Management Review

Management has evaluated subsequent events through March 04, 2021, the date on which the financial statements were available to be issued.

Property, Equipment and Depreciation

Property and Equipment are stated at cost. Depreciation is being provided using accelerated and straight-line methods over the estimated useful lives of the respective assets, which is generally five to seven years.

Revenue and Cost Recognition

The Company recognizes revenues from fixed-price and modified fixed-price construction contracts upon the completion of each contract.

Contract costs include all direct material and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, tools, repairs, and depreciation. Selling, general, and administrative costs are charged to expense as incurred. Changes in job performance, job conditions, and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined.

SENCO METALS, LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash Equivalents:

For the purposes of the statement of cash flows, the Company considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

Inventory:

Inventory is stated at lower of cost or market.

Contract Receivables:

Contract receivables are recorded when invoices are issued and are presented in the balance sheet net of allowance for doubtful accounts. Based on management's assessment of the credit history with customers having outstanding balances and current relationships with them, it has concluded that realization of losses on balances outstanding at year end will be immaterial. Contract receivables are written off when they are determined to be uncollectible. The allowance for doubtful accounts is estimated based on the Company's historical losses, the existing economic conditions in the construction industry, and the financial stability of its customers.

Income Tax:

The Company is not an income tax paying entity for federal income tax purposes, and thus no income tax expense has been recorded in the statements. Income from the Company is taxed to the members in their individual returns.

Concentration of Market Risk:

The Company maintains cash balances in its bank and at other financial institutions which, at times, may exceed the limits of the Federal Deposit Insurance Corp. (FDIC).

These financial statements were approved by management and available for issuance on January 12, 2023. Management has evaluated subsequent events through this date.
